

Power Supply Unit

Power Input: 5-24V (max).

Power Output: 1.25-20V @2A (max)

Notes:

- Based on: LM2596 step-down converter.
- Left side: power input (dc-jack) + On/Off switch.
- Right side: power output (banana plugs).
- Front side: short-circuit to set max current
(first set voltage to minimum).
